## Sixth Form Curriculum

### St Edward's Academy Sixth Form Curriculum Intent

Our curriculum aims to allow each Sixth Form student to turn their potential into performance. We have the highest of standards for students academically and pastorally. Through a rich and varied curriculum offer, we celebrate depth of subject knowledge and a commitment to cultural experiences.

We ensure that our curriculum gives access to a broad spectrum of subjects and opportunities. This means that there is something that each pupil can access and develop in response to their own profile of skills, abilities and interests.

Our curriculum seeks to place an equal importance on each subject, giving a suitable time and resource allocation to allow each to be highly successful. Equally, we place a high importance on ensuring that all parts of the curriculum are delivered by well-qualified staff with the necessary degree of subject specialist knowledge to provide a rich and well-planned curriculum, delivered in a varied and engaging manner.

Complementary to this sits our uncompromising ambition to ensure that all of our Sixth Form students achieve to their potential. We curate as bespoke programmes as possible to meet their individual needs and aspirations. Students are also involved in an extensive careers and enrichment programme. Our curriculum supports students to leave St Edward's life ready.
